Allium  
Amsonia  
Aralia cachemirica  
Aster  
Baptisia  
Bellis perennis  
Berberis  
Buddleia alternifolia  
Camassia  
Centranthus ruber  
Coreopsis  
Cornus  
Corylopsis  
Cotoneaster  
Crambe  
Dahlia 'Mystic Enchantment'  
Dianthus  
Echinacea  
Echium amoenum 'Red Feathers'  
Echinops  
Epimedium  
Erica  
Eryngium  
Eupatorium  
Geranium Rozanne® and others  
Hesperis matronalis  
Hyssopus officinalis  
Lavendula  
Leonotis menthifolia 'Savannah  
Sunset'

Lilium  
Monarda  
Nepeta  
Oreganum  
Philadelphus  
Phlox  
Pterostyrax hispida  
Rosemarinus  
Rudbeckia  
Salix  
Salvia  
Solidago  
Sedum  
Selinum wallichianum &  
other umbellifers  
Stachys monieri 'Hummelo'  
Succisa pratensis  
Symphyotrichum novi-belgii  
(old name for Aster)  
Thymus  
Vaccinum parviflorum  
Verbascum  
Vitex

### Hummingbird Plants

Abelia  
Abutilon pictum & others  
Agapanthus  
Agastache  
Amaryllis belladonna  
Aquilegia formosa & others  
Campsis radicans  
Crocsmia

Dicentra  
Delphinium  
Dichelostemma ida-maia 'Pink  
Diamond'  
Digitalis  
Disporum  
Enkianthus  
Fuchsia magellanica & others  
Gentiana  
Heuchera  
Hosta  
Grevillea victoreae  
Jasmine  
Kniphofia  
Liatris  
Lilium  
Lobelia tupa  
Lonicera  
Mahonia  
Mimulus  
Monarda  
Morina longifolia  
Nepeta  
Penstemon  
Phlox  
Phygelius  
Polygonatum  
Pulmonaria  
Ribes sanguineum  
Ribes speciosus  
Salvia  
Weigela  
Yucca  
Zauschneria

*This is not an exhaustive list, but reflects some of the plants I grow in my garden that attract bees, butterflies and hummingbirds with a high degree of success.*

*Of special interest is the Great Plant Picks website [ [www.greatplantpicks.org](http://www.greatplantpicks.org) ] especially as the 2016 theme is "the Birds and the Bees". I sit on the Perennial Plant Selection Committee of Great Plant Picks. The website is an excellent source of information about plants that are particularly suited to the Pacific Northwest. – Gwen*
